

IT Services for Students

Anhalt University

IT-Services

All students of Anhalt University, after being successfully enrolled, have various centrally and departmentally administrated IT services at their disposal:

<https://helpdesk.afg.hs-anhalt.de>

Your Initial Access Data

You received your login data with your immatriculation documents when you first registered at the Student-Service-Center(SSC).

Important Information

Student Portal (SSC-Portal)

Web address: <https://service.asa.hs-anhalt.de>

User name : xxxxxxxx

Initialpassword : xxxxxxxx **1**

Registering back for Summer Semester 2017

Period from : 15.02.2017 til 16.03.2017

Student email address (Sample for email-address)

E-Mail: max.mustermann@student.hs-anhalt.de

Your 1. Access

Before starting to use the services please change the initial password to a new personal password at

<https://selfservice.hs-anhalt.de>

To do so you need your initial login data **1** as you find them on your immatriculation documents. Please also mind the password guidelines you'll find on the right hand side.

Your changed password

- synchronizes with the connected IT systems in 5 minutes,
- gives you access to your personal email account, the officially „Filtr storage cloud“, most IT Services, and the university's PC-Pools and computer labs.

The SSC-Student Portal (HIS-QIS)

The platform for administration and organization of your study data is the SCC-Student Portal, in short called HIS-QIS.

<https://service.asa.hs-anhalt.de>

You log in to this Portal also with your initial log-in data. **1**

Change your password in the next step.

Watch out!

The changed password is currently **NOT** synchronized with other IT-systems!

PC Pools and Computer Labs

It is also possible to use the Computer labs outside the courses. You will find the locations on the campus map. Please note the house and usage regulations.

<https://helpdesk.afg.hs-anhalt.de/netzdienste/pc-pools.html>

Mobile Network Access (WLAN/WiFi)

The ISC (IT-Service-Center) is operating a wireless network (wireless local area network, WLAN) (WiFi) on campus. Information on installing are to be found at

<https://helpdesk.afg.hs-anhalt.de/netzugang/mobil-laptop-smartphone>

You need Help?
